Cameo earrings are a beautiful and timeless jewelry piece that can be dressed up or down. They're also surprisingly easy to make yourself! In this tutorial, we'll show you how to make cameo earrings with just a few simple supplies.

### Materials

- Cameos (you can find these at most craft stores)
- Earring hooks
- Jump rings
- Pliers
- Wire cutters

## Instructions

1. Start by attaching the cameos to the earring hooks. To do this, open up a jump ring and slide it through the loop on the back of the cameo. Then, close the jump ring securely.
2. Next, attach the jump rings to the earring hooks. To do this, open up a jump ring and slide it through the loop on the earring hook. Then, close the jump ring securely.
3. Finally, attach the earring hooks to the cameos. To do this, open up a jump ring and slide it through the loop on the cameo. Then, close the jump ring securely.

## Tips

- If you're using a large cameo, you may want to use two jump rings to attach it to the earring hook. This will help to distribute the weight of the cameo and prevent it from pulling on the earring hook.
- You can also use different types of beads or charms to decorate your cameo earrings. Just be sure to choose beads or charms that are small enough to fit through the loop on the cameo.
- If you're not sure how to open or close a jump ring, there are plenty of tutorials available online. Just search for "how to open a jump ring" or "how to close a jump ring."

Making cameo earrings is a fun and easy way to add a touch of elegance to your jewelry collection. With just a few simple supplies, you can create beautiful and unique earrings that you'll love wearing for years to come.
