In the face of life-threatening situations, quick and accurate medical intervention can mean the difference between life and death. The US Army Combat Lifesaver Course Medical Tasks Subcourse 0825 provides vital training to equip individuals with the skills to effectively respond to medical emergencies in combat or survival settings.

## **Course Overview**

This comprehensive subcourse is designed to enhance the medical knowledge and skills of soldiers and other personnel. It includes hands-on training in:

- Basic anatomy and physiology
- Patient assessment and documentation
- Wound care and hemorrhage control
- Airway management and ventilation
- Shock management
- Drug administration
- Emergency childbirth
- Triage and evacuation procedures

## **Benefits of the Course**

Upon completion of this subcourse, participants will be able to:

- Recognize and treat life-threatening medical conditions
- Provide immediate first aid in emergency situations
- Effectively communicate patient information to medical personnel
- Handle medical emergencies with confidence and competence
- Enhance their overall preparedness for survival situations

## **Target Audience**

The US Army Combat Lifesaver Course Medical Tasks Subcourse 0825 is ideal for:

- Soldiers in active duty or reserve units
- Law enforcement officers
- First responders
- Outdoor enthusiasts
- Anyone seeking to enhance their medical skills

## **Course Format and Duration**

The subcourse is typically delivered in a classroom setting over a period of several days. It includes lectures, practical exercises, and scenario-based training. Participants will have the opportunity to practice their skills and receive feedback from experienced medical professionals.

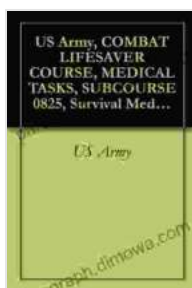

## **Certification and Recognition**

Upon successful completion of the subcourse, participants will receive a certificate of completion from the US Army. This certification is recognized

by military and civilian organizations as a testament to their proficiency in combat lifesaver techniques.

The US Army Combat Lifesaver Course Medical Tasks Subcourse 0825 is an invaluable resource for anyone seeking to enhance their medical skills and prepare for emergency situations. By equipping participants with the knowledge and abilities to save lives, this subcourse empowers individuals to make a real difference in their communities and beyond.

To learn more about this essential subcourse and register for training, visit the official website of the US Army Medical Department Center and School.
