The Golden State Warriors are one of the most successful teams in the NBA today, but it wasn't always that way. In the early 2000s, the team was a laughingstock, with a losing record and no hope for the future.

But then, in 2009, the Warriors drafted Stephen Curry, and everything changed. Curry quickly became one of the best players in the league, and he led the Warriors to their first NBA championship in 2015.

However, the Warriors' success was short-lived. In 2016, Kevin Durant joined the team, and the Warriors became unstoppable. They won two more NBA championships in 2017 and 2018, but then Durant left the team in 2019.

Without Durant, the Warriors struggled. They had a losing record in the 2019-20 season, and they were eliminated in the first round of the playoffs in 2021.

But the Warriors didn't give up. They made some key changes to their roster, and they hired Steve Kerr as their new head coach. Kerr is one of the most successful coaches in the NBA, and he quickly turned the Warriors around.

In the 2021-22 season, the Warriors had the best record in the NBA. They won their fourth NBA championship in six years, and Curry was named the NBA Finals MVP.

The Warriors' story is one of redemption. They went from being one of the worst teams in the league to one of the best. They showed that anything is possible if you never give up.

How the Dubs Made a Mess of Things

The Warriors' struggles in the early 2000s were due to a number of factors. The team had a poor owner in Chris Cohan, who made several bad decisions. The team also had a lack of talent, and they were constantly making poor draft picks.

Cohan was a businessman with no experience in basketball. He bought the Warriors in 1995, and he quickly made a number of changes that alienated the team's fans. He moved the team from Oakland to San Francisco, and he changed the team's name to the Golden State Warriors. He also fired the team's general manager, Bob Myers, and hired his own son, Chris Cohan Jr., to replace him.

Cohan Jr. was a disaster as general manager. He made a number of poor draft picks, and he traded away some of the team's best players. As a result, the Warriors became one of the worst teams in the NBA.

In 2009, the Warriors drafted Stephen Curry with the seventh overall pick. Curry was a talented player, but he was also a bit of a risk. He was undersized, and he had a history of injuries.

However, Curry quickly proved to be a star. He led the Warriors to their first NBA championship in 2015, and he was named the NBA MVP in 2016.

But the Warriors' success was short-lived. In 2016, Kevin Durant joined the team, and the Warriors became unstoppable. They won two more NBA championships in 2017 and 2018, but then Durant left the team in 2019.

How the Dubs Turned It Around

The Warriors didn't give up after Durant left. They made some key changes to their roster, and they hired Steve Kerr as their new head coach. Kerr is one of the most successful coaches in the NBA, and he quickly turned the Warriors around.

The Warriors' success is due to a number of factors. They have a great coach in Steve Kerr, and they have a talented roster led by Stephen Curry. They also have a great owner in Joe Lacob, who is committed to winning.

The Warriors' story is one of redemption. They went from being one of the worst teams in the league to one of the best. They showed that anything is possible if you never give up.
